

1989 ECS Steel Hull Push Boat/Tow Barge

Designed for aquatic clean-up work. Includes a heavy-duty winch and custom made front grapple attachment. Designed and built for State Of Florida Water Management Department. We purchased from them. Powered by a Detroit Diesel 471, with a MG506-1 tranny. Hull is actually 20' long but w/grapple attached it's 25'. Current Florida Registration is in effect until June 2013.

Original Cost \$97,000

For Sale At \$19,900.00
