Fresh CAT Reman.
Including Reman.
Crank And
New Block**

**Complete Selection
Of Caterpillar
Warranties
Available**

Original date of manufacture was 6-2006, only 3500 hours since new (prior to rebuild). This engine was originally used in a tug boat but had thrown a rod through the block because of a failed heat exchanger allowing sea water into the engine. It was then removed and professionally rebuilt by Cleveland Brothers Cat.
