

# 2002 Zodiac Hurricane

LRI stabilized 2002 Zodiac Hurricane long range interceptor. Hull was replaced in 2007 by Zodiac, motors were replaced at the same time with Reman Cummins 315's approximately 1,000 hours. Pontoons are lightweight foam covered with Hypalon. The boat is unsinkable. I purchased the boat in 2016 and installed a \$33,000.00 Seakeeper 3 DC Gyro stabilizer, installed a sine wave inverter, four new golf cart batteries, 6,000 BTU marine AC and Heat. 2017 pulled out the motors and gears, did a valve adjustment and all new seals. Completely cleaned the engine compartment. Replaced all of the shift and throttle cables, installed a set of Kiekhaefer 31" trim tabs, installed Walker air filter silencers, Racor oil coalescers, serviced both Hamilton 274 jet drives with all new seals, new zincs. Replaced 24 V search light, installed new Furuno radar. Installed new suspension seats. Comes with Road King 18,000 GVW torsion axle trailer. You won't find a more stable boat for a boat this size! Great for a tow-boat or search and rescue boat. Cruises at 31 mph at 2,400 RPM.

**Price Reduced To \$129,900 or will sell without Gyro for \$99,000**
