

HISTORIC SAN ANTONIO RIVERWALK BOATS FOR SALE

These SeaArk heavy duty all welded aluminum construction, superbly built ships have served their city and the world's 24-1/4 million visitors and are ready to get back to work!

Over 40 Boats Available - These Tanks can carry people, equipment or whatever you need them to do at 8 to 10 knots, versatile, they can be converted to a variety of uses. While they've never needed a COI the CG has said it would be easily obtained by the purchaser.

Our Custom Made Fleet has served us well! In a recent marine survey our boats were appraised at \$24k each making our fleet wide of 40 boats plus (1) smaller mechn/service and (1) smaller Mgr boat worth over One Million Dollars with new replacement at \$5 Million! Our company and city benefited from the \$100's of millions of dollars they generated and are now ready to serve another city the same way.

**Buy All or Any Part of the Whole Fleet
\$14,999 Ea. If You Buy The Whole Fleet
We Throw in A New Custom Fit 5k Trailer!**

CNG tanks are solid / well built 3500lb capacity and have served our fleet well-ready to go to another setting, easily removable, We would consider selling One, Many or All, at a price of \$1000 each.

The Motors are 9.9 CNG and have handled our loads with ease but if CNG is not readily available for your venue, they can be easily converted to Gas.

Each boat has 42 life jackets never used, A Fire Extinguisher, 20 Chairs and Fold Up Benches.

Some of the boats are convertible to Dinner Boats that will seat 20 or just one table to allow for more people to be entertained as a Cocktail Boat.

Each Boat is equipped with a 2 way marine radio, horn and 12 volt DC electrical system and (2) 2000 GPH Bilge pumps and Superb P.A.

The hull bottoms are unpainted aluminum plating that were regularly sealed with roll-on protective epoxy barrier coating.

The 9.9 Motors are 4 stroke and able to carry quite a load as they have done for our 15 yr. contract we just completed. The motors, as well as the steering cables, fuel lines, etc. have been monitored by a full mechanical dept. We would consider selling any number of motors at \$250 each.
