High Performance LED Lights

Rigid Industries patented specter and hybrid optics allow combinations of high performance flood and spot lighting for multiple marine lighting needs. These LED Lights come in various sizes, shapes and LED configurations. The M-Series family provides superior light with ultra low power consumption. Rigid Industries lighting products excel in applications where durability, performance and quality are demanded. Whether you are lighting up your deck, the water, or heading towards the dock, Rigid Industries M-series has a lighting solution to enhance your boating experience.

M-Series: Dually & Dually D²

50,000+ hour life span. 9-36V. Reverse polarity protection. IP68 certified. Goretex breather. Unbreakable polycarbonate lens. A360 high purity aluminum cast housing. 3 stage durable UV 3800 powdercoat. Over/under voltage protection. Operating temp -40°F to 145°F. MIL810-STDG vibration certified. ASTMB117 salt/fog certified. ROHS compliant. Electrically protected against RFI/EMC interference. Dually series has an updated hybrid patented optic system and Dually D² utilizes the patented specter optic system. Integrated thermal management system. Kits include stainless steel mounting brackets and mounting hardware. 2-15/16"H x 3-3/16"W x 3-3/16"D.
