

Start with a design then do your own thing.

Every SkipperLiner vessel is built with the **highest quality, latest innovations and revenue-generating space** in every square foot. The newest addition to our commercial passenger vessel portfolio is no exception.

By using the same basic structure, its innovative and flexible hull design allows us to create:

- · Dinner cruise vessels
- · Water taxis
- · Passenger ferries
- · "Party boats"
- Workboats

The vessel accommodates **up to 120 passengers** depending on configuration, and its competitive price means more profit in your pocket. Our custom design process and commitment to excellence ensures that your SkipperLiner vessel will create business opportunities for years to come.

Cruise ahead of the competition.
