

Powered By Kubota

Phasor Marine, has begun delivering EPA Tier IV compliant marine generators. These machines are not utilizing EPA flex credit engines as are other marine generator manufacturers, which is illegal. The Kubota diesel engines utilized by **Phasor** are either Tier IV Final or EPA Tier IV Marine Certified up to and including the K4-30.0 kw model. All standard machines continue to utilize the Kubota or John Deere diesel engines coupled to the electrical ends. These engines approved for use with Bio-Diesel B5. New for the 2014 model year are two Ignition Protection Certified models rated at 4.5 kw and 7.0 kw operating at 1800 rpm. These machines are certified for use in gasoline powered boats. All **Phasor's** continue to offer a 5 year limited warranty.
